

5 February 1976

Dear Blackie:

STAT Many thanks for your note and the notes of   
I am reluctant to have them further publicly distributed, not because of their content but simply because the mere fact of my occupying the job I do titillates the kooks. I would not want to cause the Agency more troubles than it already has, especially in Europe.

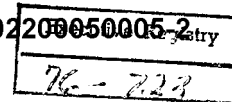

May I ask you a favor. I would like to order from the PX in the Far East two ginger jar lamps. Could I have them mailed to you? If so, I would be very grateful.

Hope to see you in March. Best to all there.

As ever,

Dear General Walters:

STAT [redacted] who hosted your presentation to  
[redacted] on 25 November -- has asked us  
to forward to you their summary of your remarks in  
the hope that you might be willing to allow him to  
distribute it to the club members.

Their text is attached for your consideration.  
It seems to be accurate.

STAT [redacted] understands that the text must not  
be further distributed without your permission. We  
have told him that we were not optimistic.

Bon courage,

1 Encl a/s
